## Round Britian Rally

Make your rides “Outs” more interesting. (don’t panic you don’t have to go all round the country)

The object of the rally is to go out on your bike and find landmarks from a list supplied by David Hancock. You have to summit your photos.

Easter Island Head Barmouth

Guardian of the Valley 6 Bells Colliery S Wales

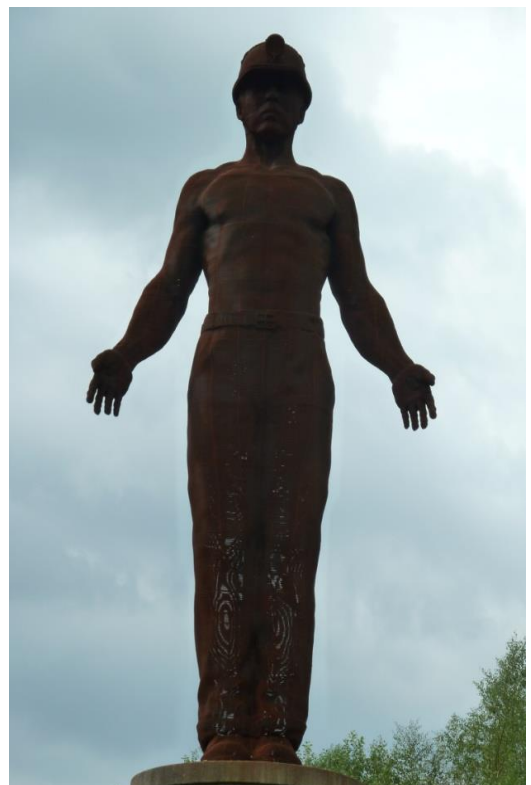

The actual land marks are amazing and very interesting.

Thanks to Chris and Eirwen Mills.

They have done this rally now for many years and found it great fun and visited many parts of the Country looking for these sites. Out of the 154 that submitted entries they were one of the 2 groups from Wales that had entered this competition.

Come and talk to them at the club meeting in March and they will show you some their previous year’s albums.
